**Regulatory Financial Statements<sup>i</sup>**

The regulatory financial statements of the Town of Wayne (the Town) are prepared using guidance and the form prescribed by the New York State Office of the State Comptroller (OSC). Article 3, Sections 30 and 31 of the General Municipal Law (GML) requires every municipal corporation and special district to annually prepare and file a financial report in the form prescribed by OSC. This form is known as the “Annual Update Document” or AUD.

The reporting requirements prescribed by OSC do not constitute generally accepted accounting principles (GAAP) in the United States of America. The most significant difference between the OSC special purpose or regulatory framework and generally accepted accounting principles (“GAAP”) is that Government Accounting Standards Board (“GASB”) Statement 34 “Basic Financial Statements and Management’s Discussion and Analysis for State and Local Governments” is not required to meet the annual financial reporting requirements of GML and OSC. GASB 34 requires a government-wide reporting framework, a focus on major funds, full accrual accounting including depreciation, management’s discussion and analysis and other GAAP requirements not mandated in these regulatory financial statements.

**Accounting Policies**

**Basis of Presentation**

These financial statements are organized on the basis of individual funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for within a separate set of self-balancing accounts that comprise its assets, liabilities, fund balances, revenues and expenditures. The following funds and fund types are used by the Town.

**Governmental Funds**

General Fund (A) – is the principal operating fund and includes all operations not accounted for and reported in another fund.

Special Revenue Funds – are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The reporting entity includes the following special revenue funds:

Highway Fund (DA) - is used to account for revenues restricted or committed to highway maintenance, snow removal and capital road improvements and related expenditures. The Highway Fund is a town-wide special revenue fund.

Keuka Lighting District (SL) – is used to account for property taxes raised on properties located within this district and to account for contractual payments for street lighting.

**TOWN OF WAYNE, NEW YORK**  
**SELECTED INFORMATION**  
**DECEMBER 31, 2022**

**Account Groups**

The Fixed Asset and Long-Term Debt Account Groups are a self-balancing set of general ledger accounts used to accumulate the historical cost of land, buildings and equipment and the track the outstanding balance of any long-term liabilities, respectively. There are no revenues or expenditures associated with these Account Groups. These account groups are not “funds” They are merely a mechanism for reporting the value of fixed assets and long-term liabilities at year end.

Fixed Asset Account Group – This account group *generally* reports the historical or donated cost of the Town’s capital assets plus any improvements that extend the useful life of an asset as of the end of the fiscal year. *See commentary under “Departures from Regulatory Framework” regarding the alternative valuation basis used by the Town for valuing land, buildings, and equipment.*

Per guidance from OSC, the Town of Wayne’s Net Pension Liability (NPL) of a *negative* \$61,938 is reported in account K108 – New Pension Asset in the General Fixed Asset Group of Accounts. NPL is measured annually by the New York State and Local Government Retirement System (NYSLRS) as of March 31<sup>st</sup> of each year. A negative NPL indicates that a pension “asset” rather than a pension “liability” existed as of the measurement date. This account group generally reports non-current physical assets but is also being used to report the non-current pension asset.

Long-Term Debt Account Group – This account group reports the amount of long-term liabilities for indebtedness, the value of employee accrued leave balances as of the end of the year and, generally, the Town’s Net Pension Liability (NPL). When NPL is a positive number, it represents an estimated non-current liability to the retirement system and is reported in the Long-Term Debt Account Group.

**Basis of Accounting**

Basis of accounting refers to *when and how* transactions or events are recorded. The Town implemented the accrual basis of accounting beginning in the 2022 fiscal year. Under the accrual basis of accounting, revenues are recognized in the accounting period in which they become both “measurable” and “available” to pay liabilities of the current period, but not necessarily received by the end of the fiscal year. Expenditures are recognized in the accounting period in which the liability is incurred, measurable and expected to be paid within twelve months of the fiscal period ended. However, there are certain exceptions such as the recording of the unmatured principal and interest on general obligation long-term debt which are recorded only when due.

**Departures from Regulatory Framework**

Basis of Accounting – Historically, the Town has maintained its accounting records and prepared its regulatory financial statements on the cash basis of accounting. While preparing the 2022 software for closure, the Town recorded accounts payable in the General and Highway funds of \$4,417 and \$1,119, respectively. The implications of this change in year-end procedures were not fully understood and management has indicated that it intends to continue using the cash basis of accounting.

If the Town had implemented the modified accrual basis of accounting as of December 31, 2022 at the fund level, certain revenue accruals would have also been necessary. Namely, a 4<sup>th</sup> quarter

**TOWN OF WAYNE, NEW YORK**  
***SELECTED INFORMATION***  
***DECEMBER 31, 2022***

2022 sales tax revenue in the amount of \$11,110 would have been accrued and reported in the General Fund and a deferred inflow of \$169,700 would have been recorded and reported in the Highway Fund for a retroactive sales tax payment due to be received in April or May of 2023.

Guidance from OSC indicates that its regulatory fund financial statements should be prepared in accordance with the modified accrual basis of accounting.

Fixed Asset Group of Accounts – OSC’s regulatory basis of accounting requires that the Town’s fixed assets should be valued at historical or estimated historical costs. The Town does not maintain accounting records to record and preserve the historical cost of the Town’s assets and any improvements thereto. In the prior year regulatory financial statements, management elected to use an alternative basis of valuation for fixed assets and those values have been carried forward to 2022.

In the prior year financial statements, the Town’s land and buildings were reported at “assessed value” as obtained from Town’s 2021 real property tax assessment rolls. The Town’s vehicles and equipment were valued at “insurance values” as stated in the Town’s insurance policy. Assessed and insured values are a departure from the “historical cost” accounting standard required by the OSC regulatory framework for fixed assets.

Any “under or over” determination of fixed asset values as of December 31, 2022 (because of the use of alternative valuation methods) was not determinable.
