Mr. Hand opened the public hearing.

Ms. Winters was present to represent the Conklin's regarding their request for variance. (Letter on file).

She stated the following:

- The Conklin's wanted to remove the existing older mobile single-wide and replace it with a double.
- They have the required demolition permit to remove the existing single wide.
- The lot size is 12,500 ft. and the minimum is 20,000.

- The structure would meet the setback requirements.
- An existing shed will be relocated to meet the setback requirements.
- There is an approved septic system for the proposed project.

Mr. Feinstein inquired when the lot was created, noting there would be no need for a variance if it was a pre-existing non-conforming lot prior to 1981 if the setback requirements were met.

Ms. Winter's stated the applicant has purchased and consolidated the other four lots after the land use regulations were adopted, but was is still unable to meet the required 20,000 ft. lot size in an R-2 district.

Ms. Winters stated at least two parcels were consolidated in 2014.

No one was present to express any concern.

It was noted that 21 letters were sent to the neighboring properties with 1 received back from Ms. Getchell stating she had no objection.

Mr. Hand closed the public hearing as no one was present to express any concerns.

Upon completion of the Area Variance Findings and Decision sheet, Mr. Feinstein made a motion to approve application as submitted and subject to existing land use regulations, seconded by Mr. Hand.
